delivered on Saturday night.

A friend of E. I. Cook, yesterday publicly boasted on the street that "the democrats of this county did not dare to refuse to nominate Mr. Cook." That if they did it portended sure and certain defeat to any ticket they might nominate. The assertion, it would seem was not an idle boast as Mr. Cook is as thoroughly "the boss" of the democratic party in this county as was ever "Boss" Kelley of Tammany or "Boss" Buckley of his San Franciso lambs.

The board of Supervisors of this county have received notice that the board of Maricopa county have refused to recognize the line established by the surveyors of the two counties and insist on the old line still being retained. The cause of such action is not stated. The survey was made at the request of the board of Supervisors of Maricopa county, and wherever any difference existed during the survey the point was always given to Mr. Barry of that county. The repor was agreed upon and signed by both surveyors and why it should be now rejected by the Maricopa county board is something we do not understand.

"If I was to live my life over again," said an American defaulter as he cocked his feet in the office of a Montreal hotel, "I'd be a lawyer instead of a cashier."

"For why?" was asked. Well, I embezzled \$7,000, and am an outlaw, and an outcast. My brother-inlaw, who is a lawyer 'managed' an estate so that it put him \$48,000 ahead, and they have just elected him mayor of the town and got him to join the church.
